Dear Hiring Manager,

I am excited to apply for the AI Innovation and Mediation Intern position at UNDP. I am a Computer Science graduate from the University of Benin with a strong foundation in software development, system design, and problem-solving. My academic background includes programming, data structures and algorithms, and exposure to both front-end and back-end web development technologies, including HTML, CSS, JavaScript, and PHP.

I am currently expanding my skills in Python, Data Analysis, Machine Learning, and Artificial Intelligence. Through my academic projects and professional experience during NYSC, I have developed strong analytical, research, communication, and teamwork skills, enabling me to contribute effectively in collaborative and technology-driven environments.

I am particularly interested in this opportunity because of UNDP's commitment to leveraging innovation and AI to address complex social challenges. I am eager to contribute my technical skills, learn from experienced professionals, and support initiatives that create meaningful impact.

Thank you for your consideration. I look forward to the opportunity to discuss my application further.

Sincerely,

Daniel Chukwunonso Odai
